

# REVOLUTIONIZING ROBOTIC WELDING

AUTOMATION WITH INTELLIGENCE, PRECISION & RELIABILITY

## Solutions For

Heavy fabrication

Ship Building

Yellow goods

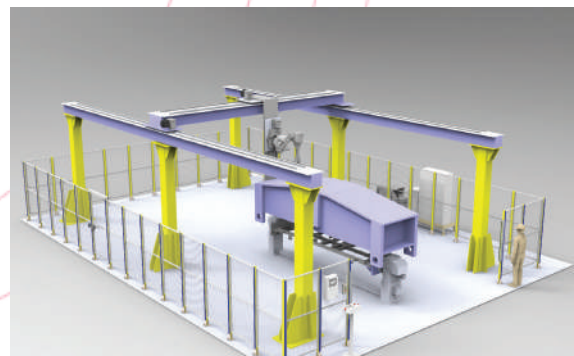

Wind Energy

Madox is a leading provider of intelligent robotic automation solutions, specializing in robotic welding and surface finishing. With 400+ successful robot cell deployments, we deliver precision, reliability, and innovation across industries. Our expertise ensures safer, smarter, and more efficient manufacturing, powered by trusted global partners and cutting-edge technology.

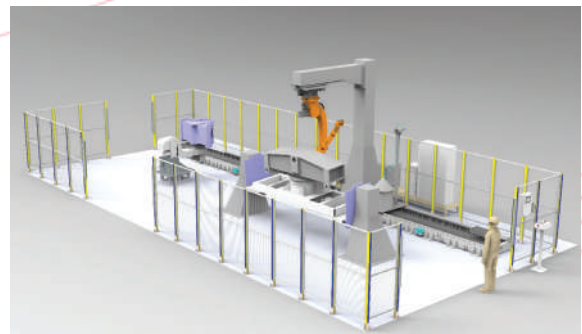

### Gantry Mounted Robot

- Job Dimensions: 5 to 10 Mtr.
- Track Length: 10 Mtr. / 20 Mtr. / 30 Mtr.
- Robot & Power Source: As per customer
- No of Axis: 6 Robot Axis & 3 Gantry Axis
- Positioners: Option available for adding dual axis and single axis positioner
- Safety: To suit customer needs

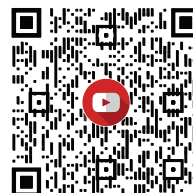

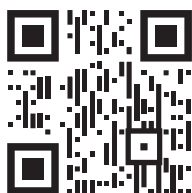

### Cantilever Mounted Robot

- Job Dimensions: 5 to 10 Mtr.
- Track Length: 10 Mtr. / 20 Mtr. / 30 Mtr.
- Robot & Power Source: As per customer
- No of Axis: 6 Robot Axis & 3 Gantry Axis
- Positioners: Option available for adding dual axis and single axis positioner
- Safety: To suit customer needs

Latest Technology options to incorporate for the above: Adaptive Welding / Scan to Weld, Seam Tracking & Finding, Collaborative Welding, Weld Inspections
