

# REDEFINING FLEXIBILITY IN ROBOTIC WELDING

## POCOW WELDING CART

**THE PORTABLE COBOT  
WELDING SYSTEM**

**The POCOW Welding Cart is a mobile, automated welding system designed for maximum flexibility and efficiency. Mounted on a robust platform, it can be easily moved to any location — simply push it on its wheels or lift it using a pallet truck. Once in position, just connect, start, plug & weld — it's that simple.**

## Configure Your Cart – Your Way

**Cobot:** ABB • Fanuc • UR  
**Power Source:** Fronius • SKS • Kemppi • Lorch • Migatronic — 300A to 500A  
**Cobot Reach:** 0.95 m to 1.8 m  
**Options:** Seam Tracking • Seam Finding • Vision Integration

## Advantages

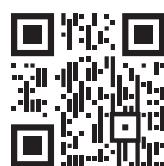

Greater Accessibility	Consistent Weld Quality
Easy Transportability	Reduced Setup Time
Flexible Work Locations	Space Efficiency
Simplified Programming	Enhanced Productivity

**Mobility:** Equipped with 4 leveling-foot caster wheels for easy movement and stability.

**Dimensions:** 1210 x 2294 x 1090 mm (L x H x W)

**Integrated Components:**

Cobot & Controller, Power Source, Wire Feeder, Gas Cylinder, Teach Pendant
